

Uninterruptible Power System

The Kozumi KUPS-610VA is an affordable and compact device designed to deliver the best UPS power management solution for your small office or home computers. Its CPU controlled design delivers reliable power quality and its advanced power failure detection brings you the best UPS backup.

KUPS-610VA

Model No:	KUPS-610VA
Power Rating :	600W
Input:	Voltage: 170~280V Frequency: 45~65Hz Current: 5.9A
Output:	Voltage: 230V Current: 4.4A AVR ACT-POINT: Buck: 266V Boost: 198V Frequency: 50/60Hz Autoselect Waveform: Step wave Overload: Over 130% delay 30 seconds
Socket Standard:	Argentinean socket
Built in AVR:	Yes
Battery:	Recharging time: 10Hrs to 90% full capacity Backup time (one PC): 6~30 minutes On-line charging: Yes Model: Sealed Lead Acid Maintenance Free Battery Account: 1PCx12V/7AH
Transfer:	Line/Battery: under 5 milliseconds
Total Efficiency:	Over 94%
Standard Battery Voltage:	24VDC
Battery quantity:	2 in series connection
Charging current:	0.40A
Dimensions:	103mm(L)x152mm(H)x335mm(W)
Weight (W/Batterykg) N.W./G.W.	6.5Kg
Temperature:	0° to 40° C (operating), -20° to 60° C (storage)
Certifications:	FCC Part 15 Class B, CE Mark
